

# Prebona DuraClean™ Prebona OdorControl™

## Keeps toilets fresh and odor free.

Treatment of toilets with Prebona DuraClean and Prebona OdorControl eliminates smell and keeps surfaces dry, clean and fresh. Cleaning of toilets are greatly facilitated with Prebona DuraClean and Prebona OdorControl.

*A toilet in a school is now fresh and odor-free thanks to treatment with Prebona DuraClean and Prebona OdorControl.*

Nordsjällands elementary school is located in Kokkedal on Zealand, Denmark, and has around 1500 students. The school building was built in 1988 and has had a problem with bad smell in the students' bathrooms. The bathrooms are about 25 m<sup>2</sup> and have dark tiled floors and white tile walls. The odor removal was performed by Protectos A/S ([www.protectos.dk](http://www.protectos.dk)).

Toilets with a strong urine smell was cleaned after which the floor was treated with Prebona DuraClean using a low-pressure sprayer and was allowed to dry. Thereafter the entire bathroom was treated with Prebona OdorControl, which was applied with a fogger. Treatment with Prebona DuraClean is permanent and does not need to be repeated. Treatment with Prebona OdorControl should be repeated regularly, about once a month, to maintain a fresh and odor free environment.

*"The smell disappeared immediately after the treatment and the bathroom has been odor free for two months since the treatment. Both pupils and employees have noticed a great improvement of the air quality in the bathrooms."* says Hans Jörgen Brenøe, caretaker.
