

Polygiene Odor Crunch

Wear More • Wash Less

"most environmentally friendly and best performing technology"

Polygiene uses Prebona CompoTech™ in superior solution for odor free textiles.

Polygiene is the world-leading provider of odor control technology for textile in sport and outdoor clothing. Polygiene has launched a solution for keeping textiles odor free based on Prebona CompoTech.

Odor Crunch is Polygiene's answer to the problem of clothes picking up external, everyday odors – smells like cooking fumes, cigarette smoke, musty damp mould and pollution.

"Polygiene strives to use the most environmentally friendly and best performing technology on the market" says Niklas Brosnan, Polygiene Marketing Manager.
